

## Thermally separated ceiling connector

Steel balcony, cantilevered

Exterior wall with thermal insulation composite system

Detailed view above door | below window

DCIK 25-02-TF | M 1 : 10

Component, example	
①	Thermal insulation composite system
②	Reinforced concrete lintel
③	Interior plaster
④	Insulation
⑤	Window mounting frame or metal angle
⑥	Head plate with cleat, optional adapter
⑦	Schöck Isokorb® XT type SK
⑧	Floor covering, floating screed
⑨	Impact sound and thermal insulation

Component, example	
⑩	Reinforced concrete ceiling
⑪	Moisture protection
⑫	Plastering profile, joint sealing tape
⑬	Geländer
⑭	Window element, door element
⑮	Facade channel
⑯	Wooden floorboards, substructure, support system
⑰	Sloped aluminum tray
⑱	Aluminum composite panel, substructure

Note: This detailed view is a general, non-binding planning proposal which only provides a schematic overview of the construction work. The planner and processor are responsible for checking applicability and completeness for each construction project. Adjacent components are only shown schematically. All specifications and assumptions must be adapted or coordinated to local conditions. The respective technical specifications of the data sheets, processing guidelines, standards, and system approvals must be observed. Balconies, arcades, and canopies require their own statics.
