

## Thermally separated ceiling connector

Precast reinforced concrete parapet  
 Wall with thermal insulation composite system  
 Detailed view of parapet | Roof edge structure

DCIK 39-02-BD | M 1 : 10

Component, example	
①	Thermal insulation composite system
②	Masonry wall or reinforced concrete wall
③	Interior plaster
④	Insulation
⑤	Sloping insulation
⑥	Parapet, precast reinforced concrete
⑦	Schöck Isokorb® CXT type A
⑧	Plank, multi-layer wood
⑨	Cover with brackets and butt connectors

Component, example	
⑩	Reinforced concrete ceiling
⑪	Protective fleece
⑫	Slab with support system
⑬	Aluminum sheet, edged

Note: This detailed view is a general, non-binding planning proposal which only provides a schematic overview of the construction work. The planner and processor are responsible for checking applicability and completeness for each construction project. Adjacent components are only shown schematically. All specifications and assumptions must be adapted or coordinated to local conditions. The respective technical specifications of the data sheets, processing guidelines, standards, and system approvals must be observed. Balconies, arcades, and canopies require their own statics.
